OPERATIONAL FOOTPRINT

From our founding in 1955, PAE has offered enduring support to the essential missions of the U.S. government, its allied partners and international organizations. Today, the approximately 20,000 members of our global workforce perform with excellence and dedication in more than 60 countries, on all seven continents, in some of the world's most challenging regions. We attribute our success to the quality of our work and the integrity and high ethical standards that define our business operations.

GLOBAL FOOTPRINT

PROVEN CAPABILITIES

With expertise in the areas shown below, PAE employees ensure the readiness of the U.S. government to implement homeland security, defense and civil government missions as well as foreign policy and national security objectives around the world. In addition to these core capabilities, PAE is proud to offer a broad range of products to solve the challenges of predicting and preventing asymmetric threats.

PAE supports the execution of our customers' complex and critical missions with concentrations in the following areas:

GLOBAL LOGISTICS AND STABILITY OPERATIONS

Supports the implementation of U.S. foreign policy objectives through worldwide diplomacy missions.

INFRASTRUCTURE AND RANGE MANAGEMENT

Operates and manages large scale facilities and infrastructure for military and civilian personnel and supports critical test, training and space ranges.

READINESS AND SUSTAINMENT

Supports comprehensive military and civilian aircraft fleet in established and remote locations.

ADJUDICATION SUPPORT SERVICES

Provides essential adjudication support and business process outsourcing serving critical national security missions.

COUNTER-THREAT SOLUTIONS

Provides multi-dimensional intelligence, technology and training solutions, as well as full spectrum UAS services.
